At a Glance

Etrion Corporation

Etrion Corporation was created as a renewable energy development company. From our inception we have been committed to contributing to the diversification of the energy mix by leveraging the abundance of renewable resources to generate clean, reliable and cost-effective solar energy.

In 2021, Etrion sold all its operating and under construction solar parks in Japan to two different Japanese consortiums. The Company no longer owns or controls any energy assets or projects and has the intention to wind up in due course. Any cash remaining at the completion of the windup activities and settlement of all liabilities of the Company will be distributed to shareholders.

Management's discussion and analysis

Management's discussion and analysis

This management's discussion and analysis ("MD&A") for Etrion Corporation ("Etrion" or the "Company" or, together with its subsidiaries, the "Group") is intended to provide an overview of the Group's operations, financial performance and a description of current and future business opportunities. This MD&A, prepared as of March 12, 2026, should be read in conjunction with the Company's consolidated financial statements and accompanying notes for the year ended December 31, 2025. Financial information is reported in United States dollars ("\$" or "USD"). In addition, certain material financial information has also been reported in Euros ("€") because of Etrion's subsidiary company in Luxembourg. Exchange rates for the relevant currencies of the Group with respect to the \$ are as follows:

	€/ \$
Closing rate at December 31, 2025	1.18
Closing rate at December 31, 2024	1.04
Average rate 2025	1.13
Average rate 2024	1.08

Non-IFRS financial measures and forward-looking statements

The terms "adjusted net income (loss)", "earnings before interest, tax, depreciation and amortization" ("EBITDA"), "Adjusted EBITDA", "solar segments EBITDA" and "adjusted operating cash flow", used throughout this MD&A, are non-IFRS measures and therefore do not have standardized meanings prescribed by IFRS and may not be comparable to similar measures disclosed by other companies. The basis for calculation has not changed and has been applied consistently by the Company over all periods presented. Adjusted net income (loss) is a useful metric to quantify the Company's ability to generate cash before extraordinary and non-cash accounting transactions recognized in the financial statements (the most comparable IFRS measure is net income (loss) as reconciled on page 11). EBITDA, including solar segments EBITDA, is useful to analyze and compare profitability between companies and industries because it eliminates the effects of financing and certain accounting policy decisions, while Adjusted EBITDA is also useful because it excludes expenses that are expected to be non-recurring (the most comparable IFRS measure for both EBITDA and Adjusted EBITDA is net income (loss) as reconciled on page 11). In addition, adjusted operating cash flow is used by investors to compare cash flows from operating activities without the effects of certain volatile items that can positively or negatively affect changes in working capital and are viewed as not directly related to a company's operating performance (the most comparable IFRS measure is cash flow used in operations as reconciled on page 11). This MD&A contains forward-looking information based on the Company's current expectations, estimates, projections and assumptions. This information is subject to a number of risks and uncertainties, many of which are beyond the Company's control. Users of this information are cautioned that actual results may differ materially from the information contained herein. For information on material risk factors and assumptions underlying the forward-looking information, refer to the "Cautionary statement regarding forward-looking information" on page 17.

BUSINESS REVIEW

Business review

Business overview

Etrion Corporation was created as an independent renewable energy developer. Etrion's largest shareholder is the Lundin family, which owns approximately 36% of the Company's shares directly and through various trusts. Etrion is based in Geneva, Switzerland. As of the date of this MD&A, the Company has no employees.

In 2021, Etrion sold all its operating and under construction solar parks in Japan to two different Japanese consortiums and therefore it has disposed of all of its solar assets. On August 24, 2021, the Company distributed \$109.2 million to the shareholders as a return of capital, and the share capital was reduced accordingly.

After the sale of all of the Company's assets and partial return of capital to shareholders, the Company applied to voluntarily delist the common shares. Such delisting from the TSX became effective after the close of trading on September 17, 2021 and from the Nasdaq after the close of trading on January 4, 2022.

On April 15, 2025, the Company's Board of Directors declared an additional distribution of US\$0.011735 (CAD\$0.016) per common share to shareholders and holders of restricted stock units. The distribution occurred on May 27, 2025. The distribution was made as a return of capital to shareholders, and the capital of the common shares was reduced accordingly.

The Company has been actively pursuing reimbursement of certain tax payments (Tremonti Ambiente) in Italy regarding years 2010-2013, 2014-2015 and 2016-2017 before the Italian Courts. On July 27th, 2022, the Regional Tax Court in Rome ruled partially in favor of the Company and recognized the right of refund of EUR 6 million (gross) for the 2010-2013 tax years. However, the Rome tax authority has lodged an appeal with the Supreme Court. As a consequence of the appeal filed with the Supreme Court, the Company must await the outcome, expected to be issued by end of 2027, before determining its complete entitlement to this refund. The Company has forsaken all other tax claims following unfavourable rulings.

Any cash remaining at the completion of the windup activities, collection of contingent assets and settlement of all liabilities of the Company will be distributed to shareholders.

Critical accounting policies and estimates

In connection with the preparation of the Company's consolidated financial statements, the Company's management has made assumptions and estimates about future events and applied judgments that affect the reported values of assets, liabilities, revenues, expenses and related disclosures. These assumptions, estimates and judgments are based on historical experience, current trends and other factors that the Company's management believes to be relevant at the time the consolidated financial statements are prepared. On a regular basis, the Company's management reviews the accounting policies, assumptions, estimates and judgments to ensure that the consolidated financial statements are presented fairly in accordance with IFRS. However, because future events and their effects cannot be determined with certainty, actual results could differ from these assumptions and estimates, and such differences could be material.

Cautionary statement regarding forward-looking information	17
Additional information	17

Other disclosures

Risks and uncertainties

Following the completion of the sale of its solar projects, there are no material risks to which the Group is exposed. The Company plans to maintain a cash reserve to cover for any liabilities that may result from potential warranty claims under the sale and purchase agreements pursuant to which its solar projects were sold, other corporate level liabilities and anticipated expenses to cover continuing operations and windup costs.

Disclosure controls and internal control over financial reporting

In accordance with National Instrument 52-109 Certification of Disclosures in Issuers' Annual and Interim Filings, the Company's Chief Executive Officer and Chief Financial Officer are required to:

- design or supervise the design and evaluate the effectiveness of the Group's disclosure controls and procedures ("DC&P"); and
- design or supervise the design and evaluate the effectiveness of the Group's internal controls over financial reporting ("ICFR").

The Company's Chief Executive Officer and Chief Financial Officer have not identified any material weakness in the Group's DC&P and ICFR.

Cautionary statement regarding forward-looking information

Forward-looking information and statements are included throughout this MD&A and include, but are not limited to, statements with respect to the possibility that the Company may pursue an alternative business venture or proceed to wind up its activities and dissolve following the completion of the sale of its solar assets and the anticipated distribution of remaining available funds to shareholders in connection with the dissolution of the Company. The above constitute forward-looking information, within the meaning of applicable Canadian securities legislation, which involves risks, uncertainties and factors that could cause actual results or events to differ materially from current expectations, including, without limitation: uncertainties with respect to the Company's ongoing activities following the completion of such sale; the risk that the Company may have insufficient funds to satisfy its future obligations, including without limitation warranty claims under the agreements pursuant to which its projects were sold and uncertainties with respect to the outcome of its current litigation; uncertainties with respect to the determination of whether the Company will pursue an alternative business venture or proceed with dissolution and winding-up; uncertainties with respect to the timing of any such determination; in the case of a determination to proceed with an alternative business, the nature of such business; and, in the case of a the dissolution and winding-up of the Company, the amount of funds that will be available for distribution at the time of dissolution. All such forward-looking information is based on certain assumptions and analyses made by the Company in light of its experience and perception of historical trends, current conditions and expected future developments, as well as other

factors the Company believes are appropriate in the circumstances. In addition to the assumptions set out elsewhere in this MD&A, such assumptions include, but are not limited to assumptions as to the amount of funds that will be required to satisfy potential warranty claims under the sale agreements, other corporate level liabilities and anticipated expenses to cover continuing operations and windup costs. Actual results, performance or achievements could differ materially from those expressed in, or implied by, such forward-looking information and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking information will transpire or occur, or, if any of them do so, what benefits will be derived therefrom. Investors should not place undue reliance on forward-looking information. Except as required by law, Etrion does not intend to update or revise any forward-looking information, whether as a result of new information, future events or otherwise. The information contained in this MD&A is expressly qualified by this cautionary statement.
